DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Galvin (6223703), Hagiwara (JP03085307A), or Polesy et al (WO 85/01312).

All three references show a spring member 32/34/17 located between a piston 31/33/13 and a connector 35/32/12, respectively.

Allowable Subject Matter

Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Note, the lead line from number 53 appears to point to empty space. The portion of the connector should be crossed hatched to identify as solid.
